

MUNICH

Working Student (m/f/x) Research Engineering

Overview

Are you looking forward to interesting and challenging tasks within a design-oriented and innovative environment that also offers you the stability and structure of a successfully grown company? Are you looking for an opportunity to contribute your creativity and personality? Then you'll be a great fit for us!

Our strong community and longstanding success are based on an appreciative, open, family-like atmosphere and the knowledge and commitment of our employees.

The use of state-of-the-art technologies and our expertise across all service phases according to HOAI allow us to develop high-quality solutions and concepts.

Become part of our team as a Working Student „Research Engineering / Consultant“ (m/f/x) and apply now!

You can expect the following

- An interface position between HENN's internal departments Technical Systems and Business Development
- Independent research, analysis and presentation of results
- Development of a research pool of planning partners in the fields of technical building services, electrical engineering and other engineering disciplines
- Maintenance and further development of internal databases and information collections
- Preparation of market reports and market analyses, for instance, in the sectors of Health Care, Energy, Transportation, etc.
- Support in maintaining initial contacts with potential planning partners and providing recommendations for further steps

You bring along

- Ongoing studies in the fields of Architecture, Industrial Engineering, or a related discipline (Civil Engineering, Building Services Engineering, Mechanical Engineering)
- Interest in current developments in large-scale architectural projects and construction
- Interest in areas such as research and market analysis
- Proficient in German and good command of English
- Independent, structured, and meticulous work approach

We offer

- Attractive and diverse, well-known (large-scale) projects and plenty of creative freedom
- Support for personal and professional development: HENN Academy (recognized by the Chambers of Architects), language courses, individual seminar and certification programs in cooperation with partners
- High quality and clear processes using state-of-the-art tools and future-oriented working methods such as the implementation of Revit as an office-wide BIM solution
- Modern office(s) in the heart of Munich (Maxvorstadt), Frankfurt (Bornheim/Ostend) and Berlin (Alexanderplatz) with excellent public transport connections
- International and interdisciplinary working environment
- Joint events (multi-day office trip and Christmas party) and team activities (company run, soccer tournament, pretzel monday, after-work get-together)
