

Project architect (m/f/x)

Beijing - People's Republic of China

For our Beijing office, we are looking for experienced architects (m/f/x) that will work with us on demanding and complex projects for public and private clients.

You can expect the following

- Prepare designs, working drawings, specifications and construction documents as well as creating working models, advance design concepts and ensure design integrity
- Communicate with local and remote project teams, coordinate and communicate with managers, consultants, and team members
- Maintain running log of issues to be resolved and decisions throughout the life span of a project
- Meets clients' requirements, ensure projects are on time and within budget

You bring along

- Very good degree in architecture
- Three to six years of experience in competition and design
- Experience in project coordination software like Navisworks as a plus
- Solid experience in coordination and working with LDIs
- Solid knowledge of the detail of project infrastructures and domestic architectural regulations
- Willingness to travel and a flexible approach to working hours (needed to permit communication across time zones)
- Excellent communication skills in English

We offer

- Great project variety, a wide range of project typologies and a large design scope
- Full coverage on all required insurances in China, including health insurance and housing fund
- Travel allowance
- Training and development opportunities
- International and interdisciplinary working environment
